

LIGHT UP YOUR SENSE

Fabio Fornasier

Born in Venice in 1963. He started his artistic experience in his father's furnace and, when still very young, became a Master glass blower. Together with his brother Roberto and his sister Lucia, he opened a furnace in Murano where he creates astonishing and refined, antique and modern style, chandeliers. He has taught in the most renowned International Schools with which he still collaborates. Young and talented, he interprets and re-elaborates the glass making techniques of Murano by continuously experimenting new ideas while paying particular attention to form and aesthetics. His works, that are often a daring interpretation of his inspiration, are a hymn to technique and creativity.

Nasce a Venezia nel 1963. Inizia il suo percorso artistico lavorando nella fornace del padre e, ancora giovanissimo, diventa "Maestro Vetraio". Assieme ai fratelli Roberto e Lucia apre una fornace a Murano, dedicandosi alla creazione di incredibili e raffinati lampadari di foglia antiche e moderne. Ha insegnato nelle più conosciute scuole internazionali del vetro, con le quali collabora tuttora. Giovane e talentuoso, interpreta e rielabora le tecniche muranesi in un lavoro di continua sperimentazione, seguendo molto attentamente le forme e l'estetica. Le sue opere, spesso audaci interpretazioni del suo mestiere, sono un inno alla tecnica e alla creatività.
